1. Context diagrams

1.1. Banca OnLine - Contexto

Context diagram in the Default domain domain.

2. App diagrams

2.1. Azure Active Directory App Diagram

Azure Active Directory app diagram in the Default domain domain.

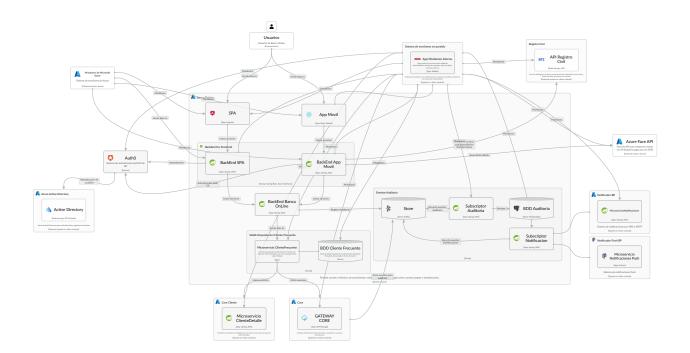

2.2. Azure Face API App Diagram

Azure Face API app diagram in the Default domain domain.

2.3. Banca OnLine App Diagram

Banca OnLine app diagram in the Default domain domain.

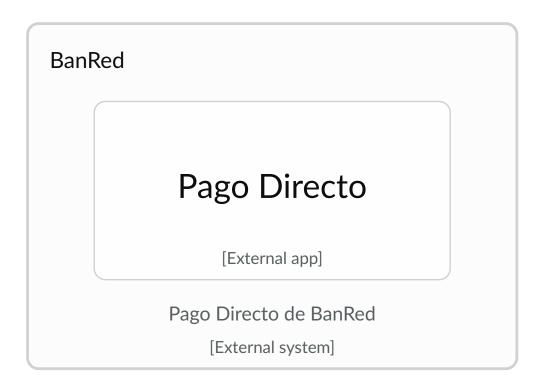

2.4. Banco Central del Ecuador App Diagram

Banco Central del Ecuador app diagram in the Default domain domain.

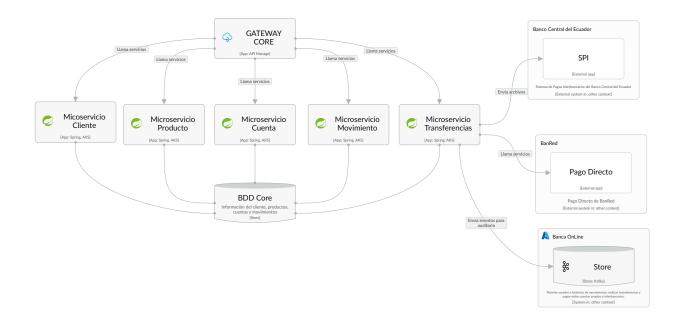

2.5. BanRed App Diagram

BanRed app diagram in the Default domain domain.

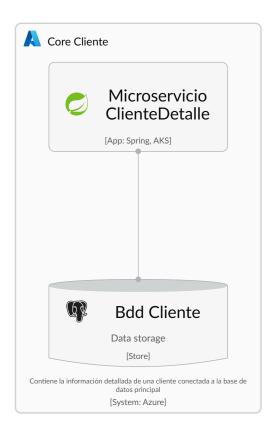

2.6. Core App Diagram

Core app diagram in the Default domain domain.

2.7. Core Cliente App Diagram

Core Cliente app diagram in the Default domain domain.

2.8. Monitoreo de Microsoft Azure App Diagram

Monitoreo de Microsoft Azure app diagram in the Default domain domain.

Monitoreo de Microsoft Azure

Azure Monitor

Monitoreo y alera tamprana

[External app: Monitor]

Sistema de monitoreo de Azure

[External system: Azure]

2.9. Notificador BP App Diagram

Notificador BP app diagram in the Default domain domain.

2.10. Notificador Push BP App Diagram

Notificador Push BP app diagram in the Default domain domain.

2.11. Registro Civil App Diagram

Registro Civil app diagram in the Default domain domain.

Registro Civil

API

API Registro Civil

[External app: API]

Servicio del Registro civil para consumo de datos biométrico como foto y huella. Se tiene que firmar un contrato

[External system]

2.12. Sistema de monitoreo en paralelo App Diagram

Sistema de monitoreo en paralelo app diagram in the Default domain domain.

Sistema de monitoreo en paralelo

ZABBIX App Monitoreo Interno

Sensa todos los microservicios validando disponibilidad y tiempo de respuesta, bases de datos, servicios externos

[App: Zabbix]

Sistema de monitoreo con notificaciones, escalado en paralelo a todos los servicios para monitorearlos.

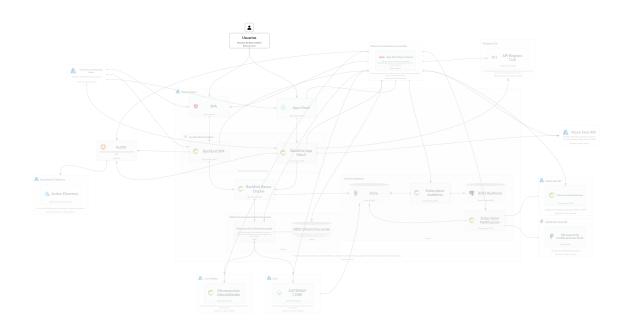

[System]

3. App diagram flows

3.1. New customer flow

App diagram flow shown on the Banca OnLine App Diagram diagram in the Default domain domain.

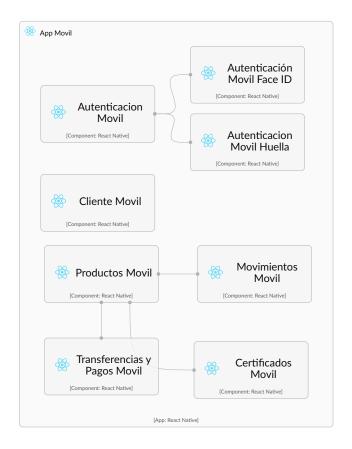

Steps:

4. Component diagrams

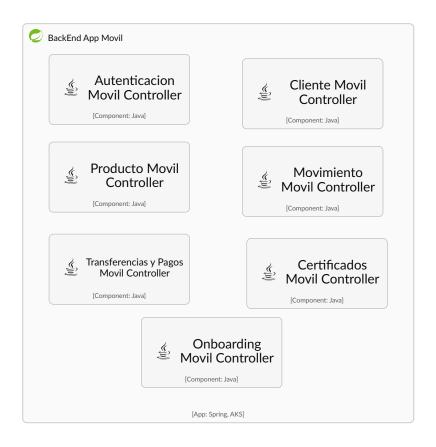

4.1. App Movil Component Diagram

App Movil component diagram in the Default domain domain.

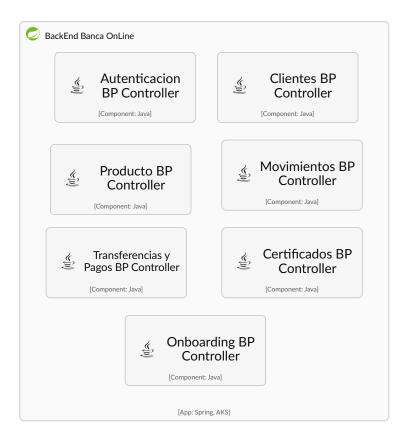

4.2. BackEnd App Movil Component Diagram

BackEnd App Movil component diagram in the Default domain domain.

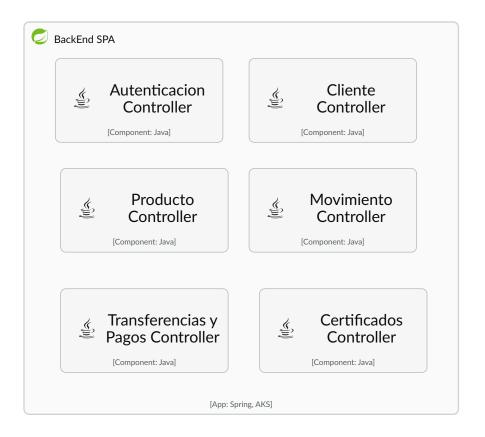

4.3. BackEnd Banca OnLine Component Diagram

BackEnd Banca OnLine component diagram in the Default domain domain.

4.4. BackEnd SPA Component Diagram

BackEnd SPA component diagram in the Default domain domain.

4.5. Micoservicio Cliente Component Diagram

Micoservicio Cliente component diagram in the Default domain domain.

4.6. Microservicio ClienteDetalle Component Diagram

Microservicio ClienteDetalle component diagram in the Default domain domain.

4.7. Microservicio ClienteFrecuente Component Diagram

Microservicio ClienteFrecuente component diagram in the Default domain domain.

Microservicio ClienteFrecuente

Cliente Frecuente Controller

[Component: Java]

Servicio que persiste la información en la base de datos de cliente frecuente, así como recargar la info cada x tiempo

[App]

4.8. Microservicio Cuenta Component Diagram

Microservicio Cuenta component diagram in the Default domain domain.

4.9. Microservicio Movimiento Component Diagram

Microservicio Movimiento component diagram in the Default domain domain.

4.10. Microservicio Producto Component Diagram

Microservicio Producto component diagram in the Default domain domain.

4.11. Microservicio Transferencias Component Diagram

Microservicio Transferencias component diagram in the Default domain domain.

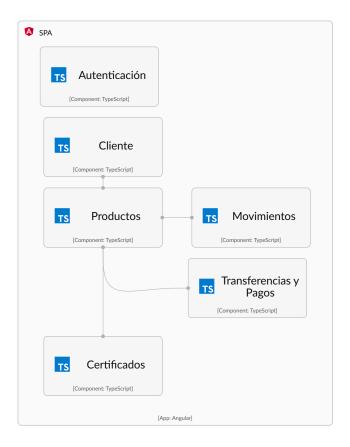

4.12. MicroservicioNotificaciones Component Diagram

MicroservicioNotificaciones component diagram in the Default domain domain.

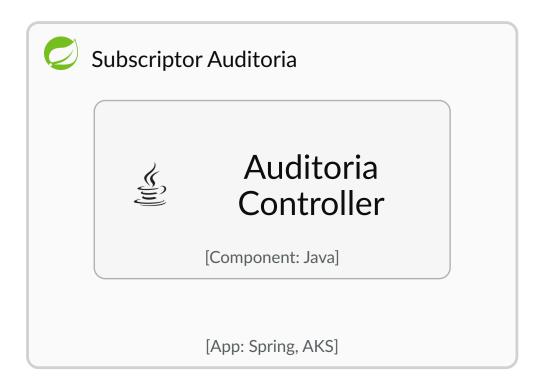

4.13. SPA Component Diagram

SPA component diagram in the Default domain domain.

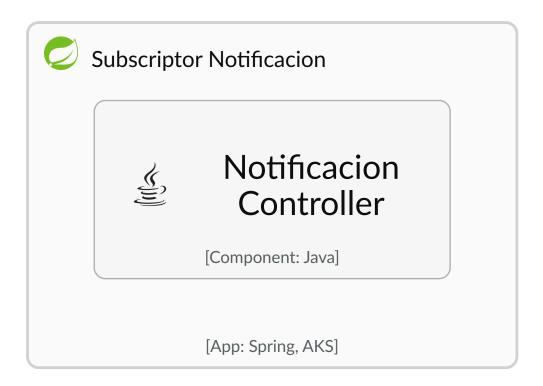

4.14. Subscriptor Auditoria Component Diagram

Subscriptor Auditoria component diagram in the Default domain domain.

4.15. Subscriptor Notificacion Component Diagram

Subscriptor Notificacion component diagram in the Default domain domain.

5. Actors

5.1. Usuarios

External actor in the Default domain domain.

Status: live

Usuarios de Banca Online

In diagrams:

- Banca OnLine Contexto
- Banca OnLine App Diagram

In diagrams:

• New customer flow

6. Groups

6.1. BackEnd For FrontEnd

Internal group in the Default domain domain.

Status: live

Technologies:

- Spring Boot
- Azure Application Gateway

In diagrams:

• Banca OnLine App Diagram

6.2. Eventos Auditoria

Internal group in the Default domain domain.

Status: live

In diagrams:

• Banca OnLine App Diagram

6.3. SAGA Orquestacion Cliente Frecuente

Internal group in the Default domain domain.

Status: live

In diagrams:

• Banca OnLine App Diagram

7. Systems

7.1. Auth0

Internal system in the Default domain domain.

Status: live

Sistema de autenticación Auth2.0 de BP

Technologies:

• Auth0

In diagrams:

- Banca OnLine Contexto
- Banca OnLine App Diagram

Descripción

- Manejara la autenticación por MFA, roles y permisos.
- Seguridad contra ataques de bots y fuerza bruta.
- El flujo de código de autorización con PKCE (Authorization Code Flow with PKCE) se usa para evitar el
 ataque de interceptación de código de autorización podemos utilizar PKCE que amplía el flujo de código
 de autorización impidiendo <u>CSRF (opens new window)</u>. PKCE, pronunciado "pixy" es un acrónimo
 de *Proof Key for Code Exchange*. Este flujo incluye nuevos elementos PKCE (*code verifier, code*challenge y code challenge method) en varios pasos del flujo encargados de proteger la comunicación
 entre el cliente y el servidor de autenticación.

7.2. Azure Active Directory

External system in the Default domain domain.

Status: live

Azure Active Directory para autenticación y registro de usuarios

Technologies:

• Microsoft Azure

In diagrams:

- Azure Active Directory App Diagram
- Banca OnLine Contexto
- Banca OnLine App Diagram

7.3. Azure Face API

External system in the Default domain domain.

Status: live

Servicio API para comparar rostros con IA (requiere pago por uso SAS)

Technologies:

• Microsoft Azure

In diagrams:

- Azure Face API App Diagram
- Banca OnLine Contexto
- Banca OnLine App Diagram

7.4. Banca OnLine

Internal system in the Default domain domain.

Status: live

Permite acceder a histórico de movimientos, realizar transferencias y pagos entre cuentas propias e interbancarias,

Technologies:

• Microsoft Azure

In diagrams:

- Banca OnLine Contexto
- Banca OnLine App Diagram
- Core App Diagram

A brief description of your system

7.5. Banco Central del Ecuador

External system in the Default domain domain.

Status: live

Sistema de Pagos Interbancarios del Banco Central del Ecuador

- Banca OnLine Contexto
- Banco Central del Ecuador App Diagram
- Core App Diagram

7.6. BanRed

External system in the Default domain domain.

Status: live

Pago Directo de BanRed

In diagrams:

- Banca OnLine Contexto
- BanRed App Diagram
- Core App Diagram

7.7. Core

Internal system in the Default domain domain.

Status: live

Contiene informacion basica del cliente, productos, cuentas y movimientos.

Technologies:

• Microsoft Azure

In diagrams:

- Banca OnLine Contexto
- Banca OnLine App Diagram

7.8. Core Cliente

Internal system in the Default domain domain.

Status: live

Contiene la información detallada de una cliente conectada a la base de datos principal

Technologies:

• Microsoft Azure

In diagrams:

- Banca OnLine Contexto
- Banca OnLine App Diagram
- Core Cliente App Diagram

7.9. FACE API

Internal system in the Default domain domain.

Status: live

API para comparar 2 fotos y obtener si son rostros identicos

Technologies:

• Microsoft Azure

In diagrams:

• Azure Face API App Diagram

7.10. Monitoreo de Microsoft Azure

External system in the Default domain domain.

Status: live

Sistema de monitoreo de Azure

Technologies:

• Microsoft Azure

In diagrams:

- Banca OnLine Contexto
- Banca OnLine App Diagram
- Monitoreo de Microsoft Azure App Diagram

7.11. Notificador BP

Internal system in the Default domain domain.

Status: live

Sistema de notificaciones por SMS y SMTP

Technologies:

• Microsoft Azure

In diagrams:

- Banca OnLine Contexto
- Banca OnLine App Diagram
- Notificador BP App Diagram

7.12. Notificador Push BP

Internal system in the Default domain domain.

Status: live

Sistema de notificaciones Push

Technologies:

• Pusher

In diagrams:

- Banca OnLine Contexto
- Banca OnLine App Diagram
- Notificador Push BP App Diagram

7.13. Registro Civil

External system in the Default domain domain.

Status: live

Servicio del Registro civil para consumo de datos biométrico como foto y huella. Se tiene que firmar un contrato

In diagrams:

- Banca OnLine Contexto
- Banca OnLine App Diagram
- Registro Civil App Diagram

7.14. Sistema de monitoreo en paralelo

Internal system in the Default domain domain.

Status: live

Sistema de monitoreo con notificaciones, escalado en paralelo a todos los servicios para monitorearlos.

In diagrams:

- Banca OnLine Contexto
- Banca OnLine App Diagram
- Sistema de monitoreo en paralelo App Diagram

8. Apps

8.1. Active Directory

External app in the Default domain domain.

Status: live

Technologies:

• AD Domain Services

In diagrams:

- Azure Active Directory App Diagram
- Banca OnLine App Diagram

8.2. API Registro Civil

External app in the Default domain domain.

Status: live

Technologies:

• <u>API</u>

In diagrams:

- Banca OnLine App Diagram
- Registro Civil App Diagram

8.3. App Monitoreo Interno

Internal app in the Default domain domain.

Status: live

Sensa todos los microservicios validando disponibilidad y tiempo de respuesta, bases de datos, servicios externos

Technologies:

• Zabbix

In diagrams:

- Banca OnLine App Diagram
- <u>Sistema de monitoreo en paralelo App Diagram</u>

8.4. App Movil

Internal app in the Default domain domain.

Status: live

Technologies:

• React Native

- App Movil Component Diagram
- Banca OnLine App Diagram

8.5. Azure Monitor

External app in the Default domain domain.

Status: live

Monitoreo y alera tamprana

Technologies:

• Azure Monitor

In diagrams:

• Monitoreo de Microsoft Azure App Diagram

Description

_

Responsibilities

-

Technical decisions

•

8.6. BackEnd App Movil

Internal app in the Default domain domain.

Status: live

Technologies:

- Spring
- Azure Kubernetes Service (AKS)

In groups:

• BackEnd For FrontEnd

In diagrams:

- BackEnd App Movil Component Diagram
- Banca OnLine App Diagram

8.7. BackEnd Banca OnLine

Internal app in the Default domain domain.

Status: live

Technologies:

- Spring
- Azure Kubernetes Service (AKS)

In diagrams:

- BackEnd Banca OnLine Component Diagram
- Banca OnLine App Diagram

8.8. BackEnd SPA

Internal app in the Default domain domain.

Status: live

Technologies:

- <u>Spring</u>
- Azure Kubernetes Service (AKS)

In groups:

• BackEnd For FrontEnd

In diagrams:

- BackEnd SPA Component Diagram
- Banca OnLine App Diagram

8.9. core.bp

Internal app in the Default domain domain.

Status: live

Backend REST API

In diagrams:

• New customer flow

8.10. Face API

Internal app in the Default domain domain.

Status: live

Technologies:

• Azure Face

8.11. GATEWAY CORE

Internal app in the Default domain domain.

Status: live

Technologies:

• API Management Services

In diagrams:

- Banca OnLine App Diagram
- Core App Diagram

8.12. Micoservicio Cliente

Internal app in the Default domain domain.

Status: live

Technologies:

- Spring
- Azure Kubernetes Service (AKS)

In diagrams:

- Core App Diagram
- Micoservicio Cliente Component Diagram

8.13. Microservicio ClienteDetalle

Internal app in the Default domain domain.

Status: live

Technologies:

- Spring
- Azure Kubernetes Service (AKS)

- Banca OnLine App Diagram
- Core Cliente App Diagram
- <u>Microservicio ClienteDetalle Component Diagram</u>

8.14. Microservicio ClienteFrecuente

Internal app in the Default domain domain.

Status: live

Servicio que persiste la información en la base de datos de cliente frecuente, así como recargar la info cada x tiempo

In groups:

• SAGA Orquestacion Cliente Frecuente

In diagrams:

- Banca OnLine App Diagram
- Microservicio ClienteFrecuente Component Diagram

8.15. Microservicio Cuenta

Internal app in the Default domain domain.

Status: live

Technologies:

- Spring
- Azure Kubernetes Service (AKS)

In diagrams:

- Core App Diagram
- Microservicio Cuenta Component Diagram

8.16. Microservicio Movimiento

Internal app in the Default domain domain.

Status: live

Technologies:

- Spring
- Azure Kubernetes Service (AKS)

- Core App Diagram
- Microservicio Movimiento Component Diagram

8.17. Microservicio Notificaciones Push

Internal app in the Default domain domain.

Status: live

Technologies:

• Pusher

In diagrams:

- Banca OnLine App Diagram
- Notificador Push BP App Diagram

8.18. Microservicio Producto

Internal app in the Default domain domain.

Status: live

Technologies:

- Spring
- Azure Kubernetes Service (AKS)

In diagrams:

- Core App Diagram
- Microservicio Producto Component Diagram

8.19. Microservicio Transferencias

Internal app in the Default domain domain.

Status: live

Technologies:

- Spring
- Azure Kubernetes Service (AKS)

In diagrams:

- Core App Diagram
- Microservicio Transferencias Component Diagram

8.20. MicroservicioNotificaciones

Internal app in the Default domain domain.

Status: live

Technologies:

- Spring
- Azure Kubernetes Service (AKS)

In diagrams:

- Banca OnLine App Diagram
- <u>MicroservicioNotificaciones Component Diagram</u>
- Notificador BP App Diagram

8.21. Pago Directo

External app in the Default domain domain.

Status: live

In diagrams:

- BanRed App Diagram
- Core App Diagram

8.22. SPA

Internal app in the Default domain domain.

Status: live

Technologies:

• Angular

In diagrams:

- Banca OnLine App Diagram
- SPA Component Diagram

8.23. SPI

External app in the Default domain domain.

Status: live

- Banco Central del Ecuador App Diagram
- Core App Diagram

8.24. Subscriptor Auditoria

Internal app in the Default domain domain.

Status: live

Technologies:

- Spring
- Azure Kubernetes Service (AKS)

In groups:

• Eventos Auditoria

In diagrams:

- Banca OnLine App Diagram
- Subscriptor Auditoria Component Diagram

8.25. Subscriptor Notificacion

Internal app in the Default domain domain.

Status: live

Technologies:

- Spring
- Azure Kubernetes Service (AKS)

In groups:

• Eventos Auditoria

In diagrams:

- Banca OnLine App Diagram
- <u>Subscriptor Notificacion Component Diagram</u>

9. Stores

9.1. Store

Internal store in the Default domain domain.

Status: live

Technologies:

· Apache Kafka

In groups:

• Eventos Auditoria

In diagrams:

- Banca OnLine App Diagram
- Core App Diagram

9.2. BDD Auditoria

Internal store in the Default domain domain.

Status: live

Technologies:

• PostgreSQL

In groups:

• Eventos Auditoria

In diagrams:

• Banca OnLine App Diagram

9.3. Bdd Cliente

Internal store in the Default domain domain.

Status: live

Data storage

In diagrams:

• Core Cliente App Diagram

In diagrams:

• New customer flow

9.4. BDD Cliente Frecuente

Internal store in the Default domain domain.

Status: live

Base de datos temporal con la información del cliente Frecuente almacenada en forma de Cache

In groups:

• SAGA Orquestacion Cliente Frecuente

• Banca OnLine App Diagram

9.5. BDD Core

Internal store in the Default domain domain.

Status: live

Información del cliente, productos, cuentas y movimientos

In diagrams:

• Core App Diagram

10. Components

10.1. Auditoria Controller

Internal component in the Default domain domain.

Status: live

Technologies:

• Java

In diagrams:

• Subscriptor Auditoria Component Diagram

10.2. Autenticación

Internal component in the Default domain domain.

Status: live

Technologies:

• TypeScript

In diagrams:

• SPA Component Diagram

10.3. Autenticacion BP Controller

Internal component in the Default domain domain.

Status: live

Technologies:

• Java

In diagrams:

• BackEnd Banca OnLine Component Diagram

10.4. Autenticacion Controller

Internal component in the Default domain domain.

Status: live

Technologies:

• Java

In diagrams:

• BackEnd SPA Component Diagram

10.5. Autenticacion Movil

Internal component in the Default domain domain.

Status: live

Technologies:

• React Native

In diagrams:

• App Movil Component Diagram

10.6. Autenticacion Movil Controller

Internal component in the Default domain domain.

Status: live

Technologies:

• Java

In diagrams:

• BackEnd App Movil Component Diagram

10.7. Autenticación Movil Face ID

Internal component in the Default domain domain.

Status: live

Technologies:

• React Native

In diagrams:

• App Movil Component Diagram

10.8. Autenticacion Movil Huella

Internal component in the Default domain domain.

Status: live

Technologies:

• React Native

In diagrams:

• App Movil Component Diagram

10.9. Certificados

Internal component in the Default domain domain.

Status: live

Technologies:

• TypeScript

In diagrams:

• SPA Component Diagram

10.10. Certificados BP Controller

Internal component in the Default domain domain.

Status: live

Technologies:

• <u>Java</u>

In diagrams:

• BackEnd Banca OnLine Component Diagram

10.11. Certificados Controller

Internal component in the Default domain domain.

Status: live

Technologies:

• Java

In diagrams:

• BackEnd SPA Component Diagram

10.12. Certificados Movil

Internal component in the Default domain domain.

Status: live

Technologies:

• React Native

In diagrams:

• App Movil Component Diagram

10.13. Certificados Movil Controller

Internal component in the Default domain domain.

Status: live

Technologies:

• Java

In diagrams:

• BackEnd App Movil Component Diagram

10.14. Cliente

Internal component in the Default domain domain.

Status: live

Technologies:

• Java

In diagrams:

• <u>Micoservicio Cliente Component Diagram</u>

10.15. Cliente

Internal component in the Default domain domain.

Status: live

Technologies:

• <u>TypeScript</u>

In diagrams:

• SPA Component Diagram

10.16. Cliente Controller

Internal component in the Default domain domain.

In diagrams:

• BackEnd SPA Component Diagram

10.17. Cliente Detalle

Internal component in the Default domain domain.

Status: live

Technologies:

• Java

In diagrams:

• Microservicio ClienteDetalle Component Diagram

10.18. Cliente Frecuente Controller

Internal component in the Default domain domain.

Status: live

Technologies:

• Java

In diagrams:

• Microservicio ClienteFrecuente Component Diagram

10.19. Cliente Movil

Internal component in the Default domain domain.

Status: live

Technologies:

• React Native

In diagrams:

• App Movil Component Diagram

10.20. Cliente Movil Controller

Internal component in the Default domain domain.

Status: live

Technologies:

• Java

In diagrams:

• BackEnd App Movil Component Diagram

10.21. Clientes BP Controller

Internal component in the Default domain domain.

Status: live

Technologies:

• Java

In diagrams:

• BackEnd Banca OnLine Component Diagram

10.22. Cuentas

Internal component in the Default domain domain.

Status: live

Technologies:

• Java

In diagrams:

• Microservicio Cuenta Component Diagram

10.23. Movimiento Controller

Internal component in the Default domain domain.

Status: live

Technologies:

• Java

In diagrams:

• BackEnd SPA Component Diagram

10.24. Movimiento Movil Controller

Internal component in the Default domain domain.

Status: live

Technologies:

• Java

In diagrams:

• BackEnd App Movil Component Diagram

10.32. Producto

Internal component in the Default domain domain.

Status: live

Technologies:

• Java

• Microservicio Producto Component Diagram

10.33. Producto BP Controller

Internal component in the Default domain domain.

Status: live

Technologies:

• Java

In diagrams:

• BackEnd Banca OnLine Component Diagram

10.34. Producto Controller

Internal component in the Default domain domain.

Status: live

Technologies:

• Java

In diagrams:

• BackEnd SPA Component Diagram

10.35. Producto Movil Controller

Internal component in the Default domain domain.

Status: live

Technologies:

• Java

In diagrams:

• BackEnd App Movil Component Diagram

10.36. Productos

Internal component in the Default domain domain.

Status: live

Technologies:

• TypeScript

In diagrams:

• SPA Component Diagram

10.37. Productos Movil

Internal component in the Default domain domain.

Status: live

Technologies:

• React Native

In diagrams:

• App Movil Component Diagram

10.38. SMS Controller

Internal component in the Default domain domain.

Status: live

Technologies:

• Java

In diagrams:

• <u>MicroservicioNotificaciones Component Diagram</u>

10.39. SMTP Controller

Internal component in the Default domain domain.

Status: live

Technologies:

• Java

In diagrams:

• <u>MicroservicioNotificaciones Component Diagram</u>

10.40. Transferencias

Internal component in the Default domain domain.

Status: live

Technologies:

• Java

In diagrams:

• Microservicio Transferencias Component Diagram

10.41. Transferencias y Pagos

Internal component in the Default domain domain.

Status: live
